

THE ADAM PRACTICE

SystemOne—Electronic Health Record Data Sharing

As a practice we aim to provide you with the best quality care that is safe and effective. To facilitate that we now work with a wider team to provide a comprehensive range of health related services to you and your family.

The practice uses the clinical computer system called **SystemOne**, which enables your full electronic record to be shared to anyone involved in providing **direct care to you**, across different healthcare services that use the same clinical system.

Please complete the information below with your choices on sharing your data and hand to Reception.
